Cálidos sentimientos para los días fríos

Cuando el otoño y el invierno empiezan a mostrar sus primeras señales, la naturaleza parece invitarnos a jugar con los hermosos colores y las bondades de la temporada. Bayas en tonos vivos adornan las ramas de follaje perenne, con hojas que aparentan derramar radiantes reflejos en cálidas tonalidades al caer a tus pies. Llevar esos espléndidos ramilletes cromáticos a tu casa puede llenarla de acogedores destellos de júbilo mientras esperamos el regreso de días más luminosos. Si añades a eso la gratificante sensación de logro que conlleva el creativo proceso de conjuntar las formas y los colores que más te inspiran, tendrás la excusa perfecta para acurrucarte y complacer a tus sentidos. Con esta elegante corona o guirnalda LEGO®, podrás dar una pincelada de novedad a tu decoración y prolongar la alegre experiencia durante todo el período invernal.

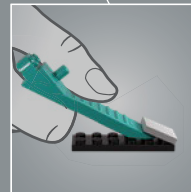

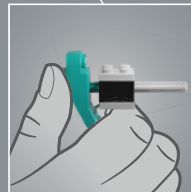

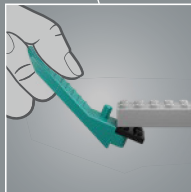

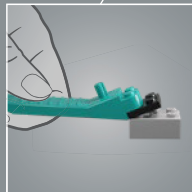

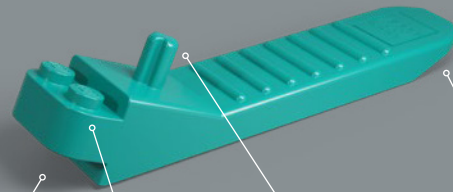

Aromas festivos

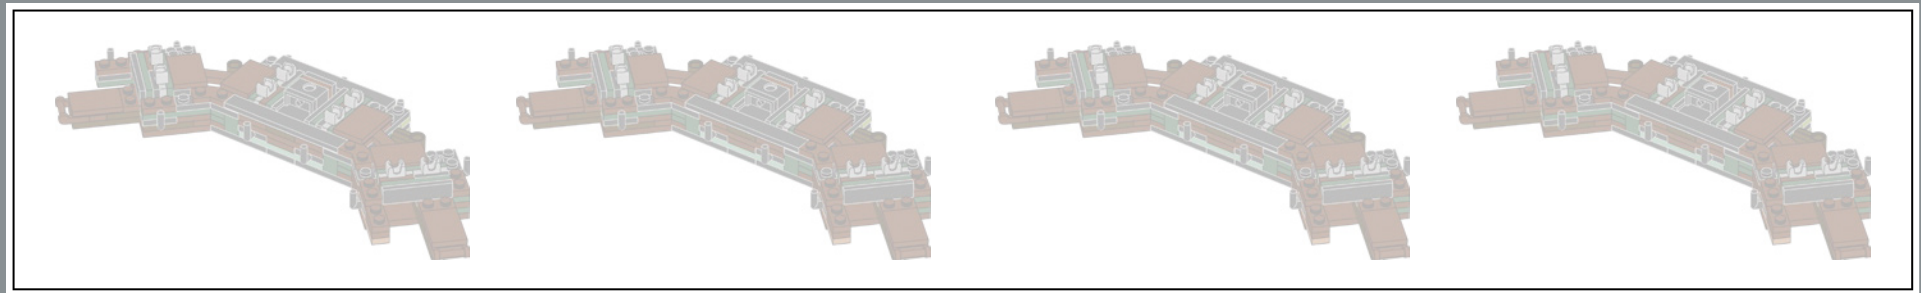

Cada estación tiene su encanto. Incluso los oscuros días del invierno nos regalan momentos de luz para compartir con nuestros seres queridos. Y nada evoca tan buenos recuerdos como las dulces y aromáticas fragancias de las fiestas: el vigorizante follaje de los abetos, las revitalizantes rodajas de naranja, la cálida canela o la terrosa savia de pino. Cuando te sientes a construir este set, podrás inspirarte en todos esos aromas y especias que tan bien conoces. Crea una corona ornamental para colgar en la pared o una guirnalda para colocarla como centro de mesa. Añádele tu propio toque creativo al modelo y personalízalo para adaptarlo a tu celebración, estado de ánimo o decoración interior. Desde la forma del arreglo hasta los pequeños detalles, basta con que cambies de lugar las bayas o reconfigures los adornos y experimentes con ellos para crear nuevas expresiones. Esperamos que esta experiencia te brinde calidez y comodidad en los días fríos, así como la oportunidad de forjar nuevos recuerdos para los años venideros.

Conectados en secuencia, los elementos LEGO® que representan tallos de flores resultan ideales para recrear agujas de pino.

El tono azulado de la parte inferior de las agujas del abeto de Fraser se reproduce aquí mediante elementos que representan hojas de palmera en verde arena, un nuevo color para este elemento LEGO® clásico que apareció por primera vez en 1989.

Algunas especies de magnolia son perennes,
por lo que sus hojas son perfectas para hacer
arreglos en todas las épocas del año.

La canela en rama proviene de la corteza interior seca del canelo. En la antigüedad, esta especia se consideraba incluso más valiosa que el oro.
